

Thursday, 26 May 2016

Dear Parents and Carers,

For the past three years, we have been working in partnership with the Education department at BT Adastral Park developing teaching schemes and resources that support the new coding aspects of the National Curriculum introduced in September 2014. Now this is embedded within primary teaching, we are working with them on a project using a programmable robot called a 'Crumble' to encourage creativity, team work and problem solving within lessons. The trainers at BT now have a scheme of work developed for primary age children and would like to run the pilot training session with the children from class 6A. This is an exciting and interesting opportunity and we are looking forward to the day.

The arrangements for the day are as follows:

- We will travel to Adastral Park by coach which will leave at 9:15.
- Children will need to bring a packed lunch, if your child is currently entitled to free school meals you will need to order one on the slip below. Children will need to wear school uniform.
- Children will finish the session at about 2:45pm and will then return by coach - we anticipate being back just in time for the end of school but may be a few minutes late depending on the traffic.
- The trip leaders will be Mrs Abbott and Mrs Noon.

If we need to contact you during the day, we will do so via the contact details held in school. If medical help is required we will assume that your child's medical requirements and doctor's surgery information remain as noted on the annual data return sheet. If any of these details have changed or will be different on the day of the trip, please inform us in writing.

Please could you complete the slip below to give your permission for your child to attend, BT may want to take photos of the event - please complete the permission section for this too. If you have any questions please do not hesitate to get in touch.

Yours sincerely

Rebecca Abbott and Jacqui Noon
